

WHAT IS A XERISCAPE?

A section of the Xeriscape at SUNY Ulster

The Xeriscape Garden is an interactive teaching tool in the selection of heat tolerant, water-wise plants, integrated pest management and alternative landscaping techniques. Master Gardeners will explain the principles and eco-benefits of this drought resistant garden design and planting techniques which help to create this incredible gardening spectacle.

Xeriscape was developed in Denver CO, at a time when there were severe water shortages, and it is now one of the most accepted landscape practices in the western part of the US. In fact, some SW cities require that all new landscaping be xeriscape! The term xeriscape is derived from the Greek word Xeros which means dry. It refers to a landscape that uses little supplemental water.

If you would like to schedule a free guided tour for your group or organization, leave a message on the Master Garden Hotline at: 845-340-3478.

MASTER GARDENER PROGRAM

Master Gardeners are volunteers trained in the art & science of gardening who provide the public with gardening programs & activities that draw on the horticulture research and expertise of Cornell University.

Other Master Gardener Programs Include:

Horticulture Hotline: Experts answer your questions about gardening, home lawn & landscaping.

Call 845-340-3478 (DIRT).

Soil Analysis, Insect & Plant Identification.

Fun & Educational Workshops, Bus Trips, & Annual Events like our Spring Seedling Sale, Garden Day & Plant Swap and Sale!

Xeriscape Garden Demonstration & Teaching Garden at SUNY Ulster in Stone Ridge.

Biannual Master Gardener Volunteer Training—Courses begin in September 2011.
For an application call 845-340-3990.

## 2010 DIVISION WORKSHOPS

Learn how to successfully divide ornamental grasses and perennials *and* go home with some great new plants for your very own garden!

Join Cornell Cooperative Extension of Ulster County's (CCEUC) Master Gardeners in their award winning Xeriscape Garden on the beautiful SUNY Ulster Campus in Stone Ridge for these two great workshops.

Please dress appropriately and bring pots or bags for your divisions. It is recommended to bring gardening gloves and tools such as pitch forks, spades and trowels. These workshops will take place rain or shine.

You will gain hands-on experience learning what to do and what not to do when it comes to dividing plants. Participants will work in small groups guided by Master Gardeners and leave with some prize divisions from the Xeriscape Garden. For more information call Dona Crawford, Master Gardener Coordinator at 845-340-3990.
