## Garden Day 2007 Teaches Gardeners to be Fearless

The saying *April showers bring May flowers* may be true, but Cornell Cooperative Extension of Ulster County's Master Gardeners will definitely have your entire garden blooming with the information they'll teach at Garden Day 2007 on Saturday, April 28 at SUNY Ulster in Stone Ridge. This day long event running from 8:30 am to 4 pm boasts 16 hands-on and how-to classes for all gardeners from the newest beginners to the most advanced veterans. This years theme, ***Fearless Gardening: Well Show You How!***, features an array of experts taking on a variety of the hottest trends in gardening. For those feeling overwhelmed by plant choices and restrictions of both time and money, keynote speaker, Tim Steinhoff promises to help with **Bringing It All Together Ingredients for Creating a Made-To-Measure Garden**. Steinhoff, a horticulturist, consultant and garden designer for the past 25 years, is well known for creating and maintaining public and private landscapes in New York City and throughout the Hudson Valley. Formerly the Director of Horticulture for Historic Hudson Valley and Curator of Heather and Perennials at Tryon Park (the Cloisters) in New York City, Steinhoff most recently redesigned the landscape at the Wallace Visitor Center at the FDR historic site in Hyde Park. Other notable Garden Day 2007 speakers include Sally Spillane, host of WKZEs Gardening Show, and environmental horticulturalist, Diane Olsen. The cost for 4 classes and a full day of garden advice is \$30 per person before April 20, 2007 or \$35 at the door. Pre-registration is recommended to ensure class choices. For a program and registration information please visit <http://counties.cce.cornell.edu/ulster> or call our office: 845-340-3990.
